CMZ2218

Walkthrough Metal detection

เครื่องตรวจจับโลหะ แบบเดินผ่าน

Feature

- **Classic Design with 300mm Passage:**
This iconic security gate features a spacious 300mm passage, ensuring comfortable and efficient screening.
- **Precision Metal Detection:**
Capable of detecting even small metal objects like coins, this gate provides high-precision security screening for enhanced safety.
- **Versatile Indoor Use:**
Ideal for a wide range of indoor environments, the security gate seamlessly integrates into various settings, offering reliable security across different locations.
- **Smart Digital Display:**
The main control box's digital display offers real-time insights into foot traffic, alarm occurrences, and detected metal quantities, empowering efficient security management.
- **Easy Installation and Low Maintenance:**
With user-friendly installation and simplified maintenance requirements, this security gate delivers both convenience and reliability. Backed by a 3-year warranty, it ensures long-term performance and peace of mind.

HIP CMZ2218

Walkthrough Metal detection

เครื่องตรวจจับโลหะ แบบเดินผ่าน

18 Zones

Specification

Model	CMZ2218
Vertical Overall Dimension (mm)	2230 x 920 x 440 mm
Vertical Dimensions of Passage (mm)	2000 x 715 x 440 mm
Package Size (mm)	2295 x 700 x 200 mm
Gross Weight	43 KG
Detection Zones	18 Zones
Working Voltage	AC90V~240V 50 / 60 Hz
Working Power	12 W
Operating Frequency Range	1 - 50 frequency bands
Working Environment Temperature	-20 °C~65 °C
Installation Environment	100cm wide x 200cm long (minimum range without metal)
Accuracy Range of Metal Objects For Location Detection	Maximum sensitivity ≥ 10g metal
